Crime Statistics

There were 3 crimes reported in Greens Norton and surrounding area.

PLR Conference

There was a PLR conference held at the end of June where the Police acknowledged they had failed to make effective use of the PLR scheme and the Police and Crime Commissioner was out of touch with the scheme.

One of the most significant failures has been the inability for the police to distribute local information. This is currently being resolved with a revised onboarding process.

PowerPoints of the conference are not yet available but will be distributed in the next couple of weeks.

One key point to take away is the local crime questionnaire only received 3000 responses for the whole of Northamptonshire which means there is no real data on which to make decisions. Where local area responses could be identified the police focused on this with two outcomes:

- Speed detection in Brackley
- Drug enforcement in Daventry leading to the dismantling of a Northamptonshire wide drug gang.

We need to ensure we have high responses to the LIPPS questionnaire which will be sent out in the next couple of months to achieve the most fitting policing for our area.
